DATE: July 19, 1979

SUBJECT: Hooker Chemical

John J. Barich, III

FROM: John J. Barich, III
Project Manager
Abandoned Hazardous Waste Site Project

TO: Douglas C. Hansen
Kenneth D. Feigner

Representatives from AHMD, S/A, and Enforcement reviewed the Hooker Chemical Field Investigation Report on July 16th.

Attached is a list of follow-up actions agreed to by the group.
Unless we hear differently, we will proceed with each action.
Earl Tower has promised to review the list of follow-up actions and provide us with any comments by July 23rd.

ENFORCEMENT DIVISION
EPA - REGION 10

HOOKER CHEMICAL, TACOMA

1. Letter from Doug Hansen to Carl Virgil requesting Hooker to provide us within 30 days:
 - A definitive summary of corporate plans for disposing of wastes in 13 railroad tank cars, including ultimate disposition of the tank cars, themselves.
 - A commitment for the expeditious ultimate disposition of 70-80 drums of trichloroethylene waste
 - A summary of the disposition of spent graphite anodes (for subsequent investigation of possible chlorinated organic problems).

ACTION: Rogelio C. Fuentes, by 7/27/79

2. Verify with Region 2 that Hooker, New York, is installing waste incineration facilities which will be permitted by State authorities.

ACTION: John J. Barich, by 7/27/79

3. Develop a means of alerting current and future property owners of sites containing asbestos wastes.

ACTION: Neil E. Thompson, by 8/17/79

4. Alert Headquarters to the potential impediments that DOT regulations may place on the shipment of hazardous wastes (especially where each component of the waste is approved for shipment).

ACTION: Rogelio C. Fuentes, by 8/2/79

5. Forward copies of the Field Investigation Report to Hooker Chemical.

ACTION: Rogelio C. Fuentes, by 7/27/79
